

BOWATER BY BIRTLEY OFFER THE WIDEST RANGE OF HIGH PERFORMANCE QUALITY DOORS FOR THE TRADE, RETAIL, COMMERCIAL AND PUBLIC SECTORS

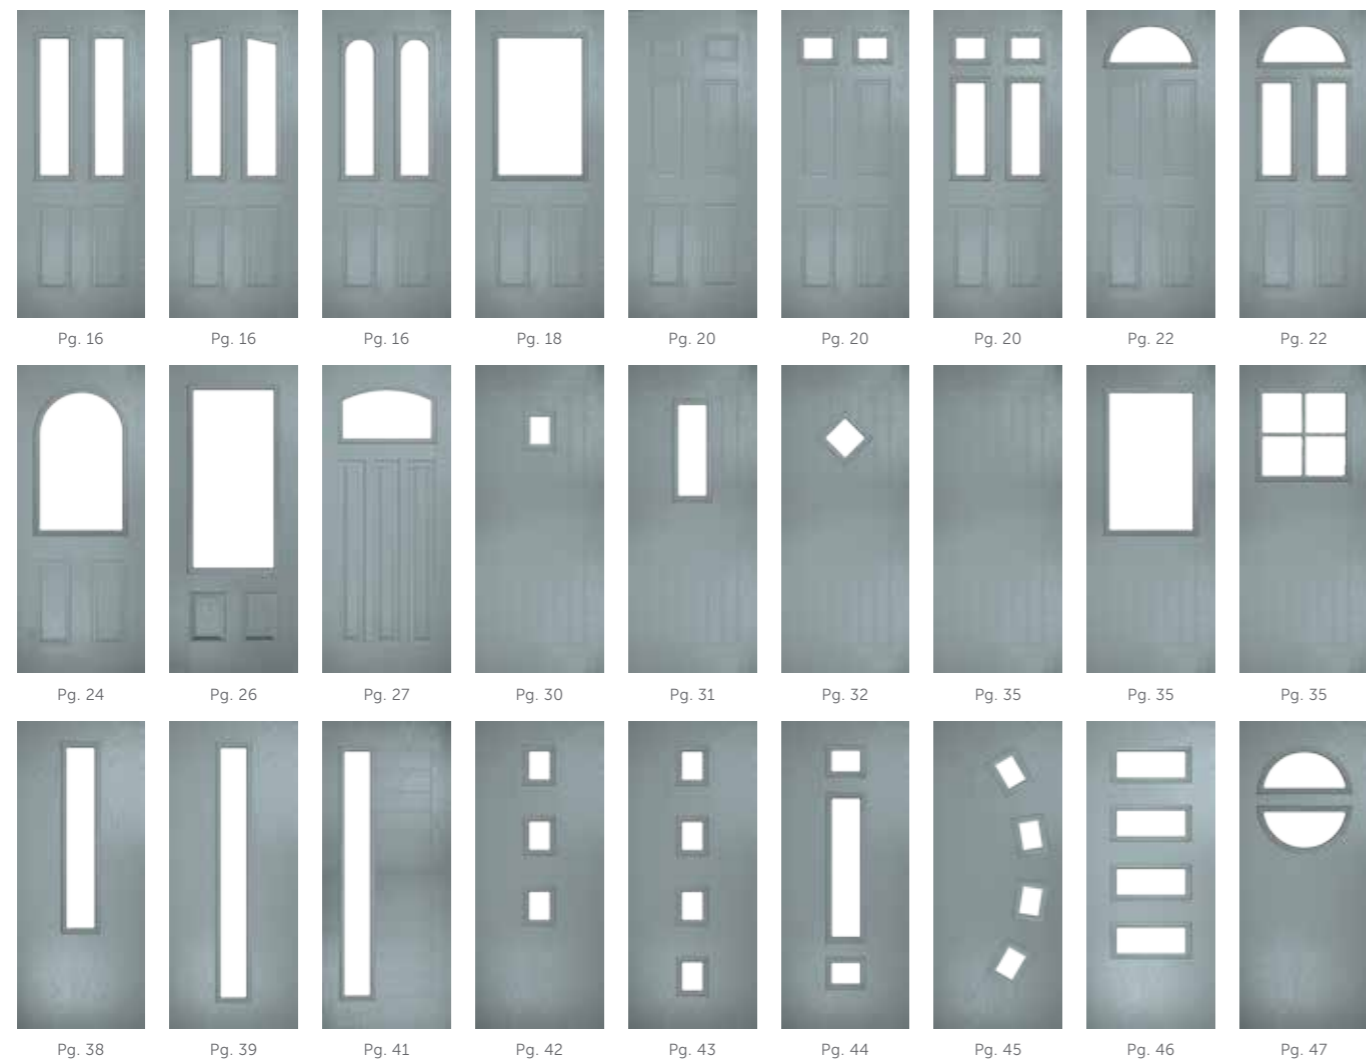

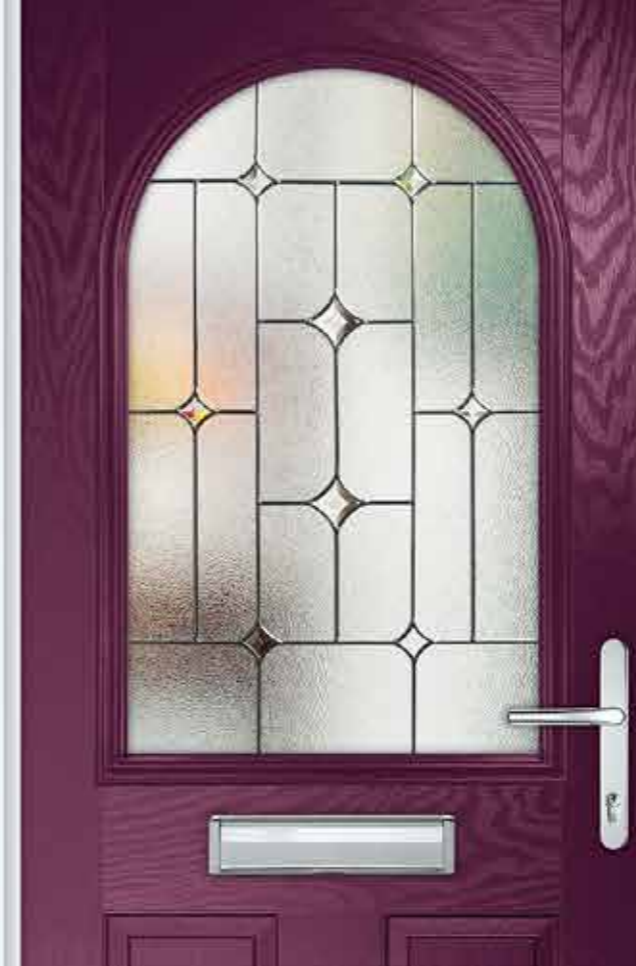

With decades of experience in manufacturing, the Bowater by Birtley range of residential and specialist composite doors deliver outstanding energy efficient performance, low maintenance, high security and robust construction, at affordable prices.

Our British made-to-measure doors are created to the highest specifications. The vast choice of colours, glazing options and hardware ensures we deliver to unique requirements.

With over 30 door styles to choose from, the Bowater by Birtley composite door brings together superb looks and performance with the reputation of one of the UK's leading home improvement manufacturers

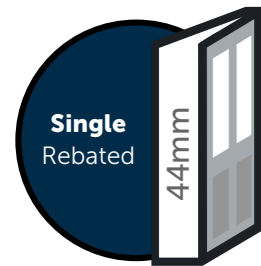

For homes with a non-standard size opening we have a range of sidelight options for you to choose from

Why not personalise your sidelight by including one of our extensive decorative glass options?

Our energy efficient doors save on both heating bills and the environment, delivering some of the lowest U-values the industry has to offer

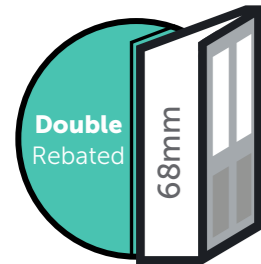

The inner core of our composites are made up of 100% CFC free Polyurethane foam that offers the highest levels of thermal insulation. This core also acts as a superior sound proofing agent. We hold accreditation to ISO14001 environmental standards, establishing our full commitment to reducing impact on the environment.

Single Rebated

Single Seal Rebated 44mm Door Leaf

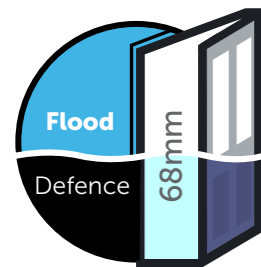

- Standard single rebate composite door
- Achieves a U-value of 0.8 W/m².K or better
- Available in multiple styles and colours with a full range of hardware and decorative glass options
- Available with Secured by Design
- Ideal for all market sectors

Double Rebated

Premium Double Seal Rebated 68mm Door Leaf

- Premium double rebate composite door
- 68mm construction with twin compression seals for superior thermal and acoustic performance
- Achieves U-values from 0.8 W/m².K
- Available with Secured by Design
- Available in multiple styles and colours with a full range of hardware and decorative glass options
- Ideal for the premium retail sector

Flood Defence

Premium Double Seal Rebated 68mm Door Leaf

- Unique flood resistant double rebate composite door
- High security 16-point locking system across lock side, cill and hinge side
- Superior weather performance over standard door
- Available with Secured by Design
- Achieves U-values from 0.8 W/m².K
- Available in multiple styles and colours with a full range of hardware and decorative glass options
- Ideal for both retail and commercial markets

Fire Defence

Single Seal Rebated 44mm FD30 Door Leaf

- Specialist 30 minute rated fire composite door
- Tested in accordance with BS476
- Ideal for both retail and commercial markets
- Available with Secured by Design
- Please note, only specialist glazing options are available for FD30 Fire Defence doors. For more information please visit www.bowaterbybirtley.co.uk

Almost any size of doorset can be supplied to your requirements and we have a complete range of frames to suit most applications

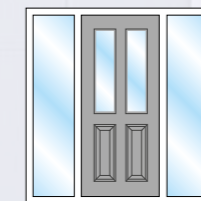

Bowater by Birtley offers a range of materials to suit particular requirements and budgets. Choice of timber, PVCu or Ecoframe. As you would expect, Bowater by Birtley takes its environment policy very seriously and all timber is obtained from FSC sources and Ecoframe a door frame produced from recycled materials.

SIDELIGHTS & FANLIGHT

Secured by Design, peace of mind for you and your family

As well as being inviting and welcoming visitors into your home, your front door should also be robust enough to act as an impenetrable barrier and deterrent to even the most persistent of intruders. Choose a Bowater by Birtley Composite Door and you can be confident that it will come with state-of-the-art security features, so you can feel safe and sound in your own home.

The main security feature of a Bowater by Birtley Composite door is its extremely robust exterior that, unlike timber doors, is not weakened or compromised by extreme weather conditions or day-to-day wear and tear. We also use the highest quality hardware to ensure the same optimum level of security provided by the door itself. As more and more intruders are becoming experts at 'lock bumping' modern cylinder locks, Bowater by Birtley has utilised much safer and secure locks on all our Composite Doors, which are linked and backed up by an array of multipoint hook-locks.

In fact, we've designed our Composite Door range to exceed even the highest expectations, which has resulted in us being awarded a Secured by Design accreditation. This is something every one of our team is extremely proud of at Bowater by Birtley, as it's part of the official UK Police flagship initiative supporting the principles of 'designing out crime'.

Can't find that perfect shade?

Bowater by Birtley doors are available in any colour choice and we can even colour the frames to match your new door*

Visit bowaterbybirtley.co.uk for more information

W Woodgrains, Rural & Contemporary collections incur an additional cost.

* White is standard colour. RAL colours available at additional cost. Frame will be a solid colour. Additional cost will apply for frame painting.

Keep your home snug and warm, with energy efficient doors

An old, not properly installed PVCu front door or warped and cracked timber door can contribute significantly to air leakage and heat transfer in a home, resulting in energy losses and costly heating bills. On the other hand, a Bowater by Birtley Composite Door not only looks red hot, but offers outstanding levels of energy efficiency to keep your home cosy, no matter how cold it is outside.

Because, at the inner core of every one of our Composite Doors, lies an energy efficient, environmentally friendly, 100% CFC free, polyurethane foam that offers the highest levels of thermal insulation. What's more, it also keeps out unwanted street and traffic noises and not just by a little bit – by the equivalent of up to six times that of alternative products.
